## 3. HEADERS AND FOOTERS

Both the header and the footer should be left empty. Do not add page numbers.

## 4. TITLE AND AUTHOR AFFILIATION

The paper title, author(s) name(s), affiliation, complete mailing address and email should be centred at the top of the first page using the fonts and type sizes indicated above. If there are several authors, the complete affiliation should be given for each of them using superscripts <sup>(1)</sup> in the authors <sup>(2)</sup> list to refer to them.

## 5. HEADINGS

This sheet has been typeset in accordance with the style to be followed for the headings. Use the decimal system in Arabic figures for the numbering of headings and subheadings. Major (or section) headings are to be in capitals and bold.

### 5.1. Subheadings

Subheadings or subsection headings are to be in lower case with initial capitals and bold font. They should be flush with the left-hand margin, on a separate line.

## 6. EQUATIONS

Equations are to be numbered consecutively throughout the paper. Each equation number must be unique. Equations should be centred, with the equation number in parentheses flush with the right-hand margin of the column. Leave a blank line before and after equations. Always refer to equations by number, as Eq. 1 or Eqs. 3-6, not as 'above' or 'below'.

$$T_s = \frac{T_b}{1 + (\lambda T_b / \alpha) \ln \varepsilon} \quad (1)$$

## 7. FIGURES AND TABLES

Figures and tables can extend over columns if required. Figure captions should be centred above the figures; table captions should be centred above the tables. Use full word 'Figure' or 'Table' in the caption. Use the abbreviation "Fig. 1" or "Tab. 1" in the text (even at the beginning of a sentence).

## 8. ABBREVIATIONS AND ACRONYMS

Define abbreviations and acronyms the first time they are used in the text, even after they have been defined in the abstract. Do not use abbreviations in the text unless they are unavoidable.

## 9. REFERENCES

Number citations consecutively in square brackets [1]. Refer simply to the reference number, as in [1]. Do not use 'Ref' or 'reference [3]' except at the beginning of a sentence: 'References the first...'. The title of the book or of the journal should be in italic script. Further information is available in "How to reference a publication" at <http://www.esa.int/esapub/conference/references.pdf>
