

# **EAS Tool – A practical approach**

**R. Campagnuolo**

ESA Alert Focal Point

(ESA TEC-QQM)

# EAS – New EAS Tool - The Application

## DEMO

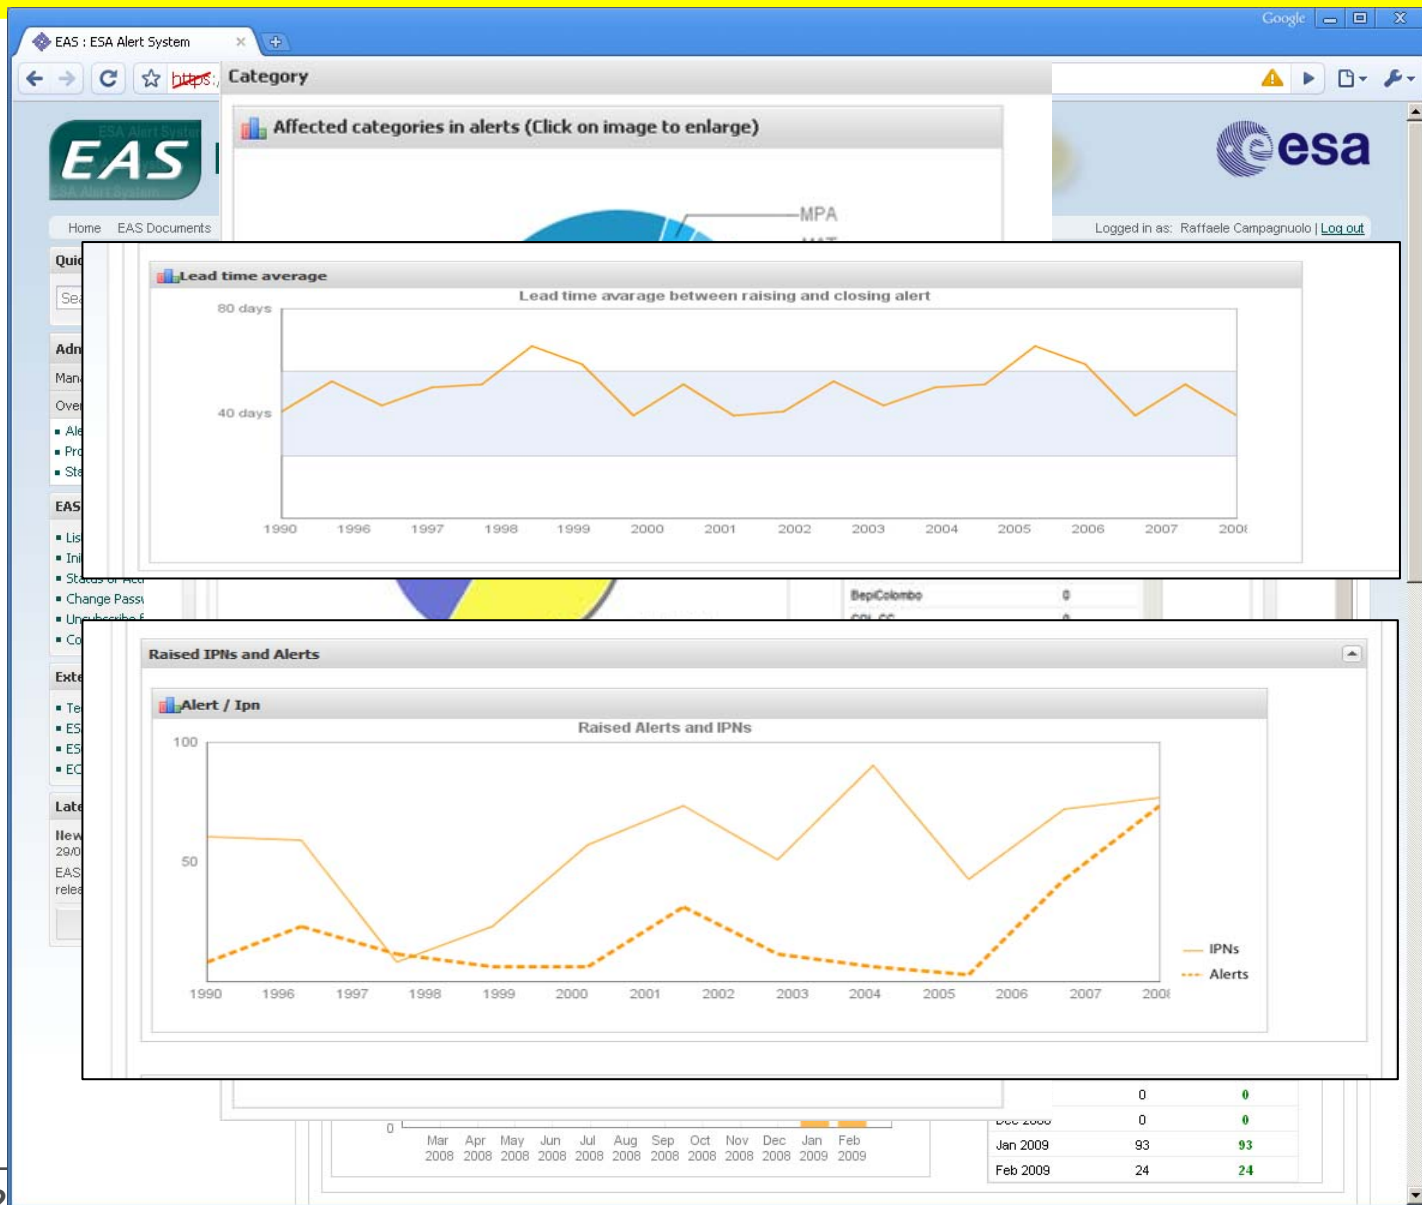

The screenshot shows a web browser window with the address bar displaying <https://eas.esa.int/index.html>. The page title is "EAS : ESA Alert System". The main header features the "EAS ESA Alert System" logo on the left and the "esa" logo on the right. Below the header is a navigation menu with links: Home, EAS Documents, Alert Coordinators, IPN, About EAS, Contact, and Help. On the right side of the header, it says "Logged in as: Raffaele Campagnuolo | [Log out](#)".

The main content area is titled "Welcome to the ESA Alert System (EAS)". It features a large orange circular icon with a white exclamation mark. To the right of the icon, the text reads: "The EAS ensures awareness of failures and problems experienced in ESA space projects. It is based on prompt exchange of information among all registered participants of the system. Each Alert report is CONFIDENTIAL and shall not be distributed outside registered members group. Every registered user can contribute to the creation of an ESA alert by reporting an issue to the EAS Focal Point via the Initiate Alert page (accessible only after login). Please fill in your login credentials to the left or register for an account in order to request an accreditation to the tool usage."

On the left side of the page, there is a sidebar with several sections:

- Quick Search on Alerts**: A search box with a dropdown menu labeled "Search by title or description".
- Administrator Options**: A "Manage" button and a list of options: Users and Projects, Alerts, Action Tracking, Project Affected Status, Categories and Technical Experts, Manufacturers, Actions, News Feed, Status Codes, Contacts, and Action Reminder.
- EAS Options**: A list of options: List Alerts, Initiate Alert, and Status of Actions on RA Manager.
